

Pine County Cannabis Business Zoning survey for Cities and Townships

1. Name of Township or City?

Enter your answer

2. What is your name and your role within your Township/City (i.e. Mayor, Supervisor, Zoning Administrator)?

Enter your answer

3. How would your municipality like to handle cannabis business zoning?

- We would like to have the county administrate all cannabis zoning, but we want to retain all other zoning administration which we presently are or are not doing.
- We would like to pass all our zoning authority to Pine County or have already done so.
- We plan to adopt the language in the County Cannabis Business Zoning Ordinance as a guide and then administrate our own zoning cannabis ordinance.
- We plan to write and administrate our own cannabis zoning ordinance regardless what the county has in place.
- We do not plan to do any special zoning administration of cannabis businesses.

4. Please share any thoughts, questions and ideas you have on how the zoning of cannabis businesses (indoor growing, outdoor growing, manufacturing, and retail), should be administrated by Pine County.
